

Vision Possible

Vision Possible is a Highpoint Health administered vision program that serves Southeastern Indiana students in need of glasses.

Highpoint Health has developed affiliate provider relationships with the Ohio Affiliate of Prevent Blindness, Essilor Vision Foundation, and a growing network of optometrist providers along with local school corporations to address and overcome provider access as well as financial and transportation barriers.

To see if your child qualifies for Highpoint Health's Vision Possible program, please contact one of the following:

- the school nurse at your child's school
- Ed Brush, Highpoint Health Rehabilitation Services Director, at 812-537-8146

For more information and/or Parental Consent for Eligibility Assessment form, please visit MyHPH.org/VisionPossible.
